

# SCREAMIN' EAGLE

## Heavy Breather Performance Air Cleaner Kit

Story by Nate Kersjes  
Photos by Jesse B. Nelson

This high-flow, forward-facing, exposed-element air cleaner kit is sure to turn heads at the starting line. Featuring a polished and chrome-plated elbow, this unique air cleaner system offers improved performance and airflow when compared to the stock or Screamin' Eagle® High Flow air cleaner. The washable and rechargeable filter features a bright chrome end cap with a laser-engraved Screamin' Eagle logo. Intake tube and back plate are made from die cast lightweight aluminum and are polished and chrome plated or painted black for a brilliant finish. The back plate features integral breathers and sealed breather bolt plugs. Kit includes a water-repellent rain sock and all mounting hardware.

Screamin' Eagle Heavy Breather Performance Air Cleaner Kit

This 2010 Road Glide will get the Heavy Breather Air Cleaner.

1 Loosen and remove the air cleaner cover mounting hardware.
